

elligence™, LLC. and Bonovo™ Orthopedics, Inc. Announce a Partnership to Bring Products to China

OCEANSIDE, N.Y.--([BUSINESS WIRE](#))--elligence, LLC., a leading medical device designer and manufacturer based in Oceanside, New York, and Bonovo Orthopedics, Inc., a premier developer, manufacturer and distributor of orthopedic and neurosurgical products to the Chinese community, have partnered to distribute elligence products in China. Headquartered in the United States, Bonovo maintains operations in Beijing, Shanghai and Tianjin, and has distribution offices throughout China.

According to Peter Slate, Chief Executive Officer of Bonovo, "Our partnership with elligence furthers Bonovo's commitment to bring the latest minimally invasive products to the Chinese orthopedic and neurosurgical markets. Partnering with innovative partners like elligence has become a growing component of Bonovo's business."

Committed to driving new standards of premium orthopedic care, the Bonovo team will now distribute elligence products including elligence's proprietary energy source, the Patented Surgi-Max®. Emitting high radiofrequency, low-temperature radio waves, the Surgi-Max® enables surgeons to perform delicate, minimally invasive surgery with unparalleled precision, versatility and safety. Bonovo has further enhanced its product portfolio to also include elligence's acclaimed Trigger-Flex® Bipolar System (featured in Disc-FX®). Disc-FX rapidly and effectively performs minimally invasive discectomy procedures for contained lumbar spine herniations.

Alan Ellman, Chief Executive Officer of Elliquence, states, "Bonovo Orthopedics is the perfect partner for elligence's unique, patented minimally invasive products and we are excited about the potential this relationship offers the patients and physicians in the orthopedic and neurosurgical markets."

About elligence, LLC.

elligence, LLC. is a privately held, ISO certified company, which designs, manufactures and markets a wide range of innovative, high frequency products for enhanced surgical procedures. elligence celebrates its extraordinary lineage; a 50 year heritage of technological distinction and global presence in the fields of neurosurgery, endoscopic spine, orthopedic and pain management. The company's vision has been to partner with the medical community to develop high quality, cost-effective products benefiting patients, doctors and medical facilities. Focusing to improve upon surgical intervention by way of 'healthy tissue preservation,' elligence promotes less trauma, minimized scar tissue formation, reduced post-operative pain and an early return to a productive lifestyle.
