

CFDA Approval of Bonovo (BOI) Full Spine Intervertebral Fusion PEEK Cages

On October 18, 2016, CFDA approved a full spine intervertebral PEEK cage product line manufactured by Beijing Orthopedic Innovation, Inc. (Bonovo). The approval was officially published in the CFDA website on October 31, 2016. The series of spine cage products consists of cervical cage (C-Fuse) and lumbar cages: P-Fuse, T-Fuse, O-Fuse and X-Fuse, namely PLIF, TLIF, OLIF and XLIF. Among those, O-Fuse is the first CFDA approval for the domestic product in the category via lumbar posterolateral MIS approach. The CFDA approval of this PEEK cage series is a milestone achievement in the company history, meaning that a full basic spine implant product line has been completed.
