

Bonovo Took Part in the 1st Changzheng Orthopedics Forum

To boost the communication and spread the latest development and research findings in orthopedics and other relevant fields, the 1st Changzheng Orthopedics Forum was held in Shanghai Exhibition Center on October 28, 2016. The Forum was co-hosted by Department of orthopedics, the Changzheng Hospital of Second Military Medical University, and Department of orthopedics Research Institute of the Chinese People's Liberation Army, Wu Jieping Medical Foundation and Editorial Department of Journal of spine surgery. Seven academicians of the Chinese Academy of Sciences and Chinese Academy of Engineering attended and delivered spectacular speeches.

Bonovo took part in and sponsored this forum and made product exhibition, especially lateral PEEK cage, CrossFuse that is used for treatment of degenerative scoliosis among adults and Elliquence Radio frequency product, Trigger-Flex.. The products were highly valued by the experts attending the meeting.

The Forum concluded successfully in the afternoon of 28th October, 2016. Yang Ning (Bonovo's Vice President), Phoenie Yang (Regional Sales Manager), Xiaoming Wang (Sales in Jiangsu district), Catherine Liu (marketing specialist) took part in this forum.
