

Bonovo's Presence at "Karamay's Osteoporosis Research Center Opening Ceremony and Seminar" in Xinjiang on May 27th, 2016.

Karamay Osteoporosis Research Center Opening Ceremony and Seminar were held in Karamay Center Hospital in Xinjiang Autonomous Region on May 27th, 2016. Bonovo as a sole sponsor participated in the events. Bonovo brought an effective simple solution for osteoporotic patients with stenosis using Bacfuse as an interspinous process fusion plate. The advanced treatment and surgical technique were discussed and well received by spine experts.

Dr. Tang Hai, Chief of Orthopedic Surgery from Beijing Friendship Hospital and Dr. Ye Zhou, President and Dr. Wang Shaobo, Chief of Orthopedic Surgery from Karamay's Center Hospital attended the meeting.

Dr. Tang Hai and Dr. WANG Shaobo successfully performed 2 cases of Interspinous Process Fusion Plating surgery (Pioneer/Bacfuse) during the meeting. One of the patients had the lumbar disc degenerative disease with scoliosis and spondylolisthesis I°. The patient was implanted with 2 consecutive levels of Bacfuse plate. The surgeries went very well with a good clinical outcome.

The meeting was concluded on May 28th, 2016. Mr. Dines De, Sr. PM of Bonovo and Mr. Liu Wei, Beijing Sales Manager also joined in the meeting and supported the 2 surgeries as a technical advisor of the product.
